

## **Plastic Free Congleton Report**

**Date:** 29 January 2021

This month Mike Tingle has succeeded in getting a system started for recycling tablet blister packaging in Congleton using TerraCycle with a drop off point at Superdrug Pharmacy in Congleton. Profits from this recycling will be given by Superdrug to the charity Marie Curie Foundation. This is great news as tablet blister packaging currently cannot be recycled at Shotton by UPM. A request for posters in the Town Notice Boards has been made.

West Heath Pharmacy are still awaiting feedback from TerraCycle to start up a similar process.

All other actions listed last October I am afraid are all still in limbo due to Covid.
