

<b>Group</b>	<b>Streetscape / Trees for Congleton</b>		<b>Project Lead</b>	Ruth Burgess
<b>Brief Description, Start/End Dates.</b>	<p>Our goal is sustainability in our Streetscape and volunteer efforts. We want to use environmentally friendly ways to deter weeds without using chemicals, one way is to add bark/mulch onto the base of hedgerows, newly planted trees and around shrubs. Currently, we transport mulch from Glebe Farm or purchase it locally. Instead, we propose mulching on-site using shrub cuttings, saving travel time and enriching the soil. We would like to buy a shredder and seek partnership support for its purchase. This benefits both our initiatives and the Trees for Congleton Group.</p>

<b>UPDATES &amp; REQUESTS</b>	
Background.	Currently, we are going across to Glebe Farm, or the volunteers using their cars and bagging up mulch created by a local tree surgeon, bagging it and taking it to different open spaces within Congleton, or when this supply has run out we have been purchasing bagged up bark from local companies for example KG Loaches in Congleton and Shenton's in Macclesfield.
