

Ullswater Road/Sandbach Road green space - proposed planting

This linear green space is owned by Cheshire East Council which supports tree and hedge planting to help reduce the effects of **climate change and biodiversity loss**. The current proposal consists of an extension of the small hedge planted in the 2022/3 planting season.

Trees for Congleton is a subgroup of Congleton Sustainability Group (part of Congleton Partnership) which aims to plant a tree or woody shrub, including hedging plants, for every Congleton resident over a period of about 6 years. The aim of the proposed planting is to increase the value of the green space for capturing and storing carbon, to provide a green corridor for wildlife, add to amenity, and help filter out air pollutants. The general proposals are shown overleaf.

An application has been made to the Tree Council under its Branching Out Fund and, if funding is secured and the proposals are supported by a majority of the people who respond to this consultation, it is anticipated that planting will be carried out in January or February 2023 by volunteers. All planting would be well mulched to keep down weeds until the planting is established. Volunteers would initially help with aftercare but in the long term the planting would be the responsibility of the Town Council's Streetscape team.

Do you have any comments? For example:

I like it!

I think it's OK, but...

I don't like it because ...

Please email your comments to us at treesforcongleton@gmail.com, putting **Ullswater Road/Sandbach Road** in the subject line, or post your comments to the Town Hall, High Street, Congleton, CW12 1BN, or leave a comment on the Trees for Congleton Facebook page. The last date for receiving comments is Sunday 21st January 2024. If you would like to help, please give contact details.
